'Nurturing the unique potential of every child through our Christian Values'

Tuesday 2nd July 2019

Dear Parent / Carer

In our school, we would like to reduce the amount of single-use plastics that we are using and replace them with better alternatives. We would like to introduce reusable bottles in the near future to prevent further damage to our planet. For children and families that are unable to bring reusable bottles to school, we will supply some if necessary. We hold a small stock of reusable bottles in school, which were kindly provided by Howdens of Crewe in support of our campaign.

In year 5/6, we have been looking at the harmful things we humans do to our planet every day. We have looked at the work of Sir David Attenborough and all he has done to help. We think it is time to make a change: the school governors think so too.

We would like it if you could continue this effort at home and simply try to make our world a better place. The calamities we are facing are not only affecting our school but also the wider community. The way we can do this is to reduce the amount of single-use plastics that we are using. It starts here.

We would like to completely ban single-use plastic bottles in our school. By introducing this rule, we hope to protect our wildlife and create a more positive environment. We have the chance to make a change.

Yours sincerely,
The Foxes Class
